Subject: BNSF in Haystack

Good afternoon Steve:

The Ex. 6 Personal Privacy (PP) Haystack are wondering when there will be movement by BNSF near their homes. In the meantime I could be assisting the Vanderver's on getting their Residential Lease, Biological and Cultural Clearances. We have approval from BIA to move forward to where the families want their future residential lease for the two homes. We need commitment from BNSF on covering the cost for clearances for the two sites. BNSF has not sent or shared the quotes which they stated that their Contractor was working on.

I see that this site is scheduled for the RA visit next week! This site visit would be good if there was some type of progress for the families near the BNSF site.

Thank you,

Vivian
